

CITO Inline Finishing System

RSP Easy Set

- excellent inline finishing solution
- simple and safe handling
- adding value to your printing machine

Easy Processing in the Printing Machine

Faster, cheaper, better – these are the demands made on today's printers. Therefore the modern solution is to use inline finishing, as this will ensure these important demands are achieved.

In order to be able to meet your customers' expectations it is important to offer a flexible and easy solution. Here our RSP Easy Set is the most profitable and efficient solution for small and medium runs by which you can draw additional value from your printing machine.

All you need is contained in the basic set:

- | | |
|--|-------------------------------|
| 1 base plate with millimetre graduation | 1 packet of supporting foam |
| 2 protective impression cylinder jackets | 1 packet of perforating rules |
| 2 protective impression cylinder jackets in strips | 1 roll of adhesive tape |
| 1 packaging for storage | 1 operating manual |
| 1 pair of safety gloves | 2 rolls of make-ready tape |
| 1 side cutter | |

Please request the desired machine type from us.
